You can register for both days or just one (please specify it in your email)

INTERNATIONAL YEAR OF GLASS 2022

WORKING WITH GLASS IN BELGIUM

NOVEMBER 17-18, 2022

Editeur responsable : Ville de Charleroi - Hôtel de Ville - Place Charles I, 14-15 - 6000 Charleroi

The year 2022 has been proclaimed « Year of Glass » by the United Nations in order to promote this extraordinary material with which a lot of people work on a daily basis. It seemed important to us in this context to organize an event that would bring together all the actors of glass in the museum, heritage, industry, academic, artistic and scientific fields. This meeting would be an opportunity for everyone to present the institution/project in which he/she works and/or the projects carried out. It would be a unique opportunity to share together around the glass medium.
